

FIG. 3

FIG. 4

FIG. 7

FIG. 6

FIG. 5

A cross-sectional view of a device. It features a rectangular block with a circular feature on its top surface. The block has a hatched pattern on its left side and a solid pattern on its right side. The circular feature is shaded with diagonal lines. Labels 101, 102, and 104 point to different parts of the device.

A cross-sectional view of a substrate 103. A rectangular frame 102 is formed on the top surface of the substrate. The frame has a central opening 104. The frame is defined by a top layer 101 and a bottom layer 102. The substrate 103 is shown with diagonal hatching.

Fig. 1 is a perspective view of a rectangular block 103. The block has a rectangular opening 101 on its front face. A dashed line 102 indicates a curved surface within the block, possibly representing a hidden internal feature or a cross-section.
